

BE1-11_m Motor Protection System

Overview

The BE1-11_m Motor Protection System is designed with many features to address issues with reliability arising from the complexity of programming. With BESTspace™ files, multiple BESTlogic™Plus preprogrammed logic schemes, and associated application notes, you can be confident that you have the complete motor protection you need.

Features

- Proven algorithms based on more than 50 years of relaying experience and more than 30 years of reliable digital relaying design.
- One relay for most applications.
- One proven, stable firmware package for all BE1-11 series relays.
- An advanced thermal model provides accurate motor protection against thermal damage by high inertia starts, unbalanced voltages, and conditions of inadequate cooling.
- Captured motor start data provides the ability to improve motor protection settings by using learned data from previous motor starts.
- Motor maintenance data provides information to assist in scheduling maintenance based on motor usage to boost maintenance efficiency.
- Phase differential protection provided for internal motor faults with fault current too weak to be quickly picked up by 50/51 overcurrent protection.
- Power factor protection detects motors working at low power factor so appropriate action may be taken.
- Three Communication Ports: Front USB, rear RS-485 and Ethernet RJ45 or fiber optic are available for BESTCOMSPUs®, BESTnet™Plus, Modbus®, DNP, and IEC 61850 protocols, also featuring user configurable email notifications.
- Enhanced I/O options available with the J-style case: 10 inputs with 5 outputs or 7 inputs with 8 outputs.

Benefits

- The Offline Simulator, in BESTlogic™Plus, reduces commissioning errors by providing the ability to test and troubleshoot logic without the need for expensive physical hardware.
- Complete motor protection system for applications including utility power generation, water treatment, petroleum drilling and refining, pulp and paper mills, and chemical plants.
- BESTCOMSPUs® software, provided free of charge, makes it easy to enter protection settings with confidence with its intuitive settings, built-in error checking, and summary screens.
- Complex protection is easy to configure and understand with preprogrammed schemes, drag-and-drop logic, user labels, and notes provided by BESTlogic™Plus.
- Quick and reliable fault clearing with minimal false operations.
- Easily navigate settings and metering with the intuitive HMI menu and large display.
- Customize displayed information to meet different application needs with user-defined indicators and labels.
- Select and Operate buttons, on the front panel, provide direct control of internal logic.

Specifications

Power Supply

Option 1:	48/125 Vac/dc	dc range 35 to 150 V
		ac range 55 to 135 V
Option 2:	125/250 Vac/dc	dc range 90 to 300 V
		ac range 90 to 270 V
Option 3:	24 Vdc	dc range 17 to 32 V*
		*(as low as 8 V for momentary dips)
Burden:	10 W continuous, 12 W max (all options)	

Voltage Sensing (10 to 125 Hz)

Phase:	Metering:	50 to 250 Vac
	Continuous:	300 V, Line to Line
	One-second rating:	600 V, Line to Neutral
Vx:	Metering:	25 to 125 Vac
	Continuous:	150 V, Line to Line
	One-second rating:	600 V, Line to Neutral

Current Sensing (10 to 125 Hz)

5 A Nom:	Metering:	0.5 to 15 Aac
	Continuous:	20 Aac
	One-second rating:	400 Aac
1 A Nom:	Metering:	0.1 to 3 Aac
	Continuous:	4 Aac
	One-second rating:	80 Aac

SEF:	Metering:	0.01 to 3 Aac
	Continuous:	4 Aac
	One-second rating:	80 Aac

Communications

USB:	2.0, Type-B
RS-485	
Baud:	Up to 115,200
Protocols:	DNP
	Modbus®
Ethernet	
Speed:	10/100 Mbit Copper
	100 Mbit Fiber
Protocols:	BESTnet™ Plus
	BESTCOMSPlus®
	DNP
	Modbus
	IEC 61850™

Agency/Certifications

UL recognized
CSA certified per Standard C22.2 No. 14
DNP3-2009, V2.6 compliant
KEMA certified per IEC 61850 Certificate Level A
CE and UKCA compliant
China RoHS compliant

Physical

Weight:	5.1 lb (2.3 kg)
IP class:	IP50
Dimensions (WxHxD)	
J case:	7.00 x 9.12 x 7.91 inches, with mounting flanges (177.8 x 231.65 x 200.91 mm)
	5.33 x 8.41 x 7.29 inches, behind panel (135.38 x 213.61 x 185.17 mm)
