

## Test Supervisor

Highland, IL

**Job Summary:** Responsible for reviewing new and existing test software, hardware, and procedures for improved production of all Basler Electric products. Provides support for product delivery, labor efficiency, overhead expense, rejects and scrap, housekeeping, and employee relations.

**Reports to:** Plant Manager

**Supervises:** Production Technicians and assigned Assemblers

**Essential Duties:**

- Provide support in reviewing and improving computerized automated testing programs and testing setups.
- Assist with the debugging and evaluation of computerized test software.
- Review testing methods for all products to optimize test time.
- Develop testing and troubleshooting training for production technicians or production line workers.
- Participate in design review and work with design and test engineering to evaluate the testability of new designs.
- Responsible for a safe, clean workplace.
- Assure operations are performed to meet productivity expectations and ship schedules required.
- Travel as required for training or support of other job-related needs.
- Perform all other duties as assigned.

**Requirements:**

- Associate's degree or equivalent related testing and troubleshooting experience.
- Minimum of 2 years' experience in test and troubleshooting.
- Working knowledge of software-based automated test equipment.
- Proficient with Microsoft Office.
- Ability to work alternate shifts when necessary.
- Working knowledge of Oracle System is a plus.
- Strong problem-solving skills.
- Self-starter with initiative.
- Good communication skills, both verbal and written.
- Supervisory experience is a plus.
