

Material Planner

Highland, IL

Job Summary: Plan and direct the flow of material to the production lines. Ensure that purchased and manufactured materials are available for production in a timely yet cost effective manner. Work with the Production Planner in a team environment to support manufacturing schedules. Work with the Buyer(s) in expediting materials to meet customers' needs. As needed, will assist the Buyer(s) during their absence.

Reports to: Purchasing Manager

Essential Duties:

- Analyze and respond to MRP messages to determine proper material flow to support production.
- Assist in reducing material lead times and manufacturing cycle times in order to support MRP/Build to Order shop requirements.
- Place purchase orders with suppliers as required to ensure proper material flow and follow-up on confirmation dates from the suppliers as needed.
- Monitor balances on Blanket Orders and advise Buyer(s) when to initiate a new Blanket Order.
- Enter Transfer Orders after evaluation stock availability at the other Basler facilities.
- Assist in resolving packing slip/receiving issues.
- Review impact of ECOs on the production schedule. Ensure that material is managed to minimize the company's cost in reacting to engineering changes.
- Meet with the Production Supervisor and Production Planner to ensure customer promise dates are met.
- Perform other duties as assigned.

Requirements:

- Associate's degree preferred or related experience in an MRP shop.
- Minimum of two years' experience in purchasing/scheduling roles.
- Working knowledge of computer systems and PCs, as well as good oral and written communication skills.
- Ability to work in a variety of environments including office and manufacturing areas.
