

Field Service Engineer (Remote)

Littleton, CO

- Job Summary:** Position requires travel to various site installations for system startup or system maintenance or to conduct training on systems and/or devices manufactured by Basler and other manufacturers. Design, build, and evaluate equipment required for jobs and projects. Requires minimum supervision.
- Reports to:** General Manager
- Essential Duties:**
- Capable of analyzing circuits used in Basler devices and other manufacturers' devices.
 - Capable of designing circuits used in Basler devices.
 - Coordinate with the Field Service and Training Coordinator and the customer for scheduling of service trips.
 - Write trip reports describing in detail the system and device failure and actions taken. Review with the design engineering group the system problem and the solution.
 - Travel to customer site to oversee installations of equipment, to perform system start up or required maintenance, to provide instructions for customer maintenance, or to repair equipment.
 - Design, build, and test breadboard units required for jobs or projects with minimal supervision.
 - Conduct tests requiring selection and adaptation of test equipment and modification of test procedures. Release ATPs and ATRs.
 - Evaluate reports on component and equipment failures, and recommend solutions.
 - Represent Basler Electric while at customer facility. Will typically be the only technical person on the site.
 - Assist Sales in the determination of cost responsibility.
 - Provide technical support while at Basler's facilities.
 - Assist in writing and help refine instruction and service manuals.
 - Write other project reports as assigned.
 - Coordinate required drawings, sketches, or other artwork with appropriate personnel.
 - Perform other duties as assigned.
- Requirements:**
- Extensive travel (approximately 70%).
 - Travel will be worldwide with little advance notice.
 - BSEE or Associate Degree with electrical field experience.
 - Two (2) years' experience in design or field service engineering is desired.
 - Above average written and verbal communication skills.
